

Slotted Flat Top Short Rail for Klip-Lok and Saflok Systems

This versatile rail is designed for use with Klip-Lok and Saflok roofing systems, providing a secure and efficient mounting solution.

Application	Saflok 700 (Safintra) Klip-lok 700 (GRS) Similar roof types
Key Features	Fast and easy to install Attach to popular concealed fix metal roofs without sheet penetration Non-corrosive, durable materials Metallurgical compatibility with most metal roofs Full-rail mounting for PV panels Good ventilation, 100 mm clearance between panel frame and roof sheet Fixation of cable trays, walkways and other accessories Convenient installation Resistant to over-tightening as bolts and nuts are stainless steel (no aluminium thread) Single tool fastening
Material	Aluminium 6005-T5, Stainless steel SUS304
Product type	Concealed fix
Specifications	Anodized > 13 µm
Dimensions	H 68 mm x L 55 mm x W 69 mm
Total Weight	90 g (including fasteners)
Orientation	Landscape / portrait (ideally portrait)

Quick Installation

The LM-KS-700-F ensures fast, hassle-free installation with its single-tool fastening system. It securely attaches to concealed fix metal roofs like Saflok 700 and Klip-Lok 700 without damaging the sheets.

Durable and Versatile

The LM-KS-700-F, made from Aluminium 6005-T5 and stainless steel SUS304, is corrosion-resistant and compatible with most metal roofs. It offers 100 mm clearance for ventilation and is ideal for mounting PV panels and accessories.
