

LM-NTC

The LM-NTC is a flat-top clamp specifically engineered for Novotexi 440 concealed fix roofing. Its slotted design allows for easy alignment and thermal movement, ensuring a secure, non-penetrative mounting solution ideal for PV installations.

Application	Ideal for fastening solar mounting clamps directly to thin steel roof sheets, eliminating the need for pre-drilling.
Key Features	<ul style="list-style-type: none"> Resistant to over-tightening as bolts and nuts are stainless steel (no aluminium thread). Corrugated flat-top design ensures a secure, non-slip grip on the rail. Attach to popular concealed fix metal roofs without sheet penetration. Single tool fastening- groove prevents the nut from turning along while tensioning the bolts. Anodised for enhanced corrosion resistance and a sleek, durable finish.
Material	Aluminium 6005-T5 / 6063-T6, SUS304
Specification	Anodised > 13 µm
Orientation	Portrait
Dimensions	H 54 mm x L 80 mm x W 60 mm
Total Weight	220 g (including fasteners)
