

ROOFTOP LM-TBR-VL

LM-TBR-VL

The LM-TBR-VL short rail is tailored for IBR roof sheets with a 35 mm wide crest. It features four M6 side-mounting holes and comes pre-fitted with EPDM for reliable sealing. This low-profile version is ideal for tilted PV systems where clearance needs to be minimised.

Application	<ul style="list-style-type: none"> IBR 686 and similar trapezoidal roof sheeting Not applicable to all applicable to all trapezoidal roof sheeting Ideal for Tilted landscape and portrait systems
Key Features	<ul style="list-style-type: none"> Made from high-grade aluminium for excellent corrosion resistance and durability. Quick installation with only four fasteners required. Integrated EPDM layer ensures a reliable water-resistance seal. Cost-effective design with minimal material use.
Material	Aluminium 6005-T5, EPDM
Product Type	Pierced Fix
Specifications	Anodised > 13 µm
Dimensions	H 48 mm x L 80 mm x W 68.6 mm
Total Weight	90 g
Orientation	Suitable to all orientations
