

KLIPOK / SAFLOK ROOFS

Built for Speed. Designed for Strength.

Lumax Energy's PV Mounting Kits are purpose-built for small-scale solar projects and system expansions. Engineered for strength, ease of installation, and cost efficiency, our kits include all components required to mount solar modules on Kliplok/Saflok roofs. Designed to streamline your workflow and reduce onsite labor, Lumax kits help you complete jobs faster without compromising on quality or performance.

► Kit Code(s)

- LMK-KIT- KLIPLOK - 5PL (5-Panel Landscape Kit) - Includes anodised finish on roof clamps
- LMK-KIT- L- KLIPLOK - 5PL (5-Panel Landscape Kit) - Includes tumbled finish on roof clamps

What's in the box?

The kit consists of all the necessary components to mount a vertical column of 5 landscape panels. **Note: Klip-lok® and Saflok® are registered trademarks of their respective owners. Lumax Energy makes no claim to ownership.**
